Eksen Amerikan Language Course English language certificate	2019 - 2020

PROJECTS

Firat University Foreign Student Application System **12.2022-06.2023**

Technologies: Php, Laravel, Javascript, Ajax

Features: This is a system utilized for foreign students to register and make payments for university entrance exams, as well as to track the preference and placement process along with the general workflow. Its purpose is to facilitate the enrollment and admission procedures for international students, allowing them to easily navigate the application process and keep track of their progress.
